Reply to Office Action dated December 12, 2005

**REMARKS/ARGUMENTS**

As a result of this Amendment, claims 1-36 are under active consideration in the subject patent application.

In the Official Action, the Examiner has identified claims as standing subject to a Restriction Requirement under 35 § USC 121, as follows:

- I) claims 1-36, drawn to a signal light circuit, classified under Class 315, subclass 129; and
- II) claims 37-42, drawn to a method of creating strobing light, classified under Class 315, subclass 241.S.

Applicants elect, without prejudice, to prosecute the invention of Group 1, i.e., claims 1-36. Claims 37-42 have been cancelled without prejudice.

Applicants expressly reserve the right to prosecute the non-elected subject matter in related applications.

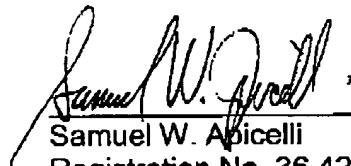

In view of the foregoing, Applicants respectfully submit that at least claims 1-36 are in condition for allowance. Favorable consideration is therefore requested. Applicants respectfully request that a timely Notice of Allowance be issued in this case.
